The authors spent seventeen days at the Morgan factory in Pickersleigh Road, Malvern Link recording step-by-step - from customer's specification sheet to finished car - how individual craftsmen handbuild a Morgan. Follow this amazing journey through the factory, from craftsman to craftsman, by word and picture.

Available again after a long absence! Always big on character and charm, Fiat's little cars played an important international roll in providing affordable and practical private transport for millions who had previously thought their dream impossible. With particular emphasis on the now classic 600 and Nuova 500 cars, this book tells the full story of these 'baby' Fiats. Built, and exported to, many countries outside of the marque's native Italy, over 6.5 million Topolinos, 600s and Nuova 500s were sold, and an amazing number survive to this today. Also covered are the wonderful models built on these cars' tiny chassis by Italy's leading coachbuilders, and the motorsport success achieved by the Abarth versions of the little cars that everybody loves.

This book - the sixth volume in a set covering the Porsche 911 models - is the definitive history of the hugely successful 997-series, with in-depth detail on all the road cars sold around the world, as well as the 997's competition exploits.

Most renewable energy systems aren't new, but their use is. This handbook shows how each of the main renewable energy technologies works, along with step-by-step details of how it's installed, as well as the pros and - at least as importantly - the cons of each type of installation.

This book reveals the full history of the first generation Mercedes-Benz SLK, covering in detail the German, US, UK, Australian and Japanese markets. The perfect book to grace a Mercedes-Benz enthusiasts' library shelf, it's the definitive record of the model illustrated with stunning photographs.
