Nanovesicles are highly-promising systems for the delivery and/or targeting of drugs, biomolecules and contrast agents. Despite the fact that initial studies in this area were performed on phospholipid vesicles, there is an ever-increasing interest in the use of other molecules to obtain smart vesicular carriers focusing on strategies for targeted delivery. These systems can be obtained using newly synthesized smart molecules, or by intelligent design of opportune carriers to achieve specific delivery to the site of action. The drug/contrast agent-containing vesicles need to be directed to precise locations within the body to obtain desired magnitude and duration of the therapeutic or diagnostic effect. This spatial control in the delivery might open new avenues to modulate drug activity while avoiding side-effects and to optimize contrast agent properties while avoiding a broad distribution in the organism. However, delivering and targeting active substances into specific tissues and cells is still a challenge in designing novel therapeutic approaches against untreatable disorders, such as tumors and degenerative diseases.

This practical and helpful volume details how clinicians can work through various common challenges in individual, couple, or group psychotherapy. Chapters draw upon clinical wisdom gleaned from the author ' s 48 years as a practicing psychiatrist to address topics

such as using countertransference for therapeutic purposes; resistance, especially when it needs to be the focus of the therapy; and a prioritization of exploration over explanation. Along with theory and clinical observations, Dr. Gans offers a series of "Clinical Pearls," pithy comments that highlight different interventions to a wide range of clinical challenges. These include patient hostility, the abrupt and unilateral termination of therapy, the therapist's loss of compassionate neutrality when treating a couple, and many more. Many of the "Clinical Pearls" prioritize working in the here-and-now. In addition to offering advice and strategies for therapists, the book also addresses concerns like the matter of fees in private practice and the virtue of moral courage on the part of the therapist. Written with clarity, heart, and an abundance of clinical wisdom, *Addressing Challenging Moments in Psychotherapy* is essential reading for all clinicians, teachers, and supervisors of psychotherapy.

*Making Sense of World History* is a comprehensive and accessible textbook that helps students understand the key themes of world history within a chronological framework stretching from ancient times to the present day. To lend coherence to its narrative, the book employs a set of organizing devices that connect times, places, and/or themes. This narrative is supported by: Flowcharts that show how phenomena within diverse broad themes interact in generating key processes and events in world history. A discussion of the common challenges faced by different types of agent, including rulers, merchants, farmers, and parents, and a comparison of how these challenges were addressed in different times and places. An exhaustive and balanced treatment of themes such as culture, politics, and

economy, with an emphasis on interaction. Explicit attention to skill acquisition in organizing information, cultural sensitivity, comparison, visual literacy, integration, interrogating primary sources, and critical thinking. A focus on historical “ episodes ” that are carefully related to each other. Through the use of such devices, the book shows the cumulative effect of thematic interactions through time, communicates the many ways in which societies have influenced each other through history, and allows us to compare and contrast how they have reacted to similar challenges. They also allow the reader to transcend historical controversies and can be used to stimulate class discussions and guide student assignments. With a unified authorial voice and offering a narrative from the ancient to the present, this is the go-to textbook for World History courses and students. The Army often uses vehicles informally classified as ultra-light tactical mobility (UTM). This report assesses the demands, requirements, current ad hoc capabilities, and key considerations for developing and sustaining established Army UTM fleets.

From the author of the celebrated classic *Louder Than Hell* comes an oral history of the badass Heavy Metal lifestyle—the debauchery, demolition, and headbanging dedication—featuring metalhead musicians from Black Sabbath and Judas Priest to Twisted Sister and Quiet Riot to Disturbed, Megadeth, Throwdown and more. In his song “ You

Can ' t Kill Rock and Roll ” Ozzy Osbourne sings, “ Rock and roll is my religion and my law. ” This is the mantra of the metal legends who populate Raising Hell—artists from Black Sabbath, Judas Priest, Slipknot, Slayer, and Lamb of God to Twisted Sister, Quiet Riot, Disturbed, Megadeth, and many more! It ' s also the guiding principle for underground voices like Misery Index, Gorgoroth, Municipal Waste, and Throwdown. Through the decades, the metal scene has been populated by colorful individuals who have thwarted convention and lived by their own rules. For many, vice has been virtue, and the opportunity to record albums and tour has been an invitation to push boundaries and blow the lid off a Pandora ' s box of riotous experiences: thievery, vandalism, hedonism, the occult, stage mishaps, mosh pit atrocities, and general insanity. To the figures in this book, metal is a means of banding together to stick a big middle finger to a society that had already decided they didn ' t belong. Whether they were oddballs who didn ' t fit in or angry kids from troubled backgrounds, metal gave them a sense of identity. Drawing from 150-plus first-hand interviews with vocalists, guitarists, bassists, keyboardists, and drummers, music journalist Jon Wiederhorn offers this collection of wild shenanigans from metal ' s heaviest and most iconic acts—the parties, the tours, the mosh pits, the rage, the joy, the sex, the drugs . . . the heavy metal life! Horns up!

they want? Reseng is an assassin. Raised by a cantankerous killer named Old Raccoon in the crime headquarters "The Library," Reseng never questioned anything: where to go, who to kill, or why his home was filled with books that no one ever read. But one day, Reseng steps out of line on a job, toppling a set of carefully calibrated plans. And when he uncovers an extraordinary scheme set into motion by an eccentric trio of young women--a convenience store clerk, her wheelchair-bound sister, and a cross-eyed librarian--Reseng will have to decide if he will remain a pawn or finally take control of the plot. Crackling with action and filled with unforgettable characters, *The Plotters* is a deeply entertaining thriller that soars with the soul, wit, and lyricism of real literary craft.

*The Lily of Life: A Fairy Tale by The Crown Princess of Roumania.* First published by Hodder & Stoughton, London; New York, 1913. "Graceful fancy, elevated sentiment, and simple but dignified expression ensure a high place among the fairy tales of the publishing year for the Queen of Roumania's charming work, *The Lily of Life*.... The merit of the telling is unusual, and it has the further advantage of being presented in an exceedingly handsome and artistic form. The coloured illustrations of Miss Helen Stratton show graceful drawing and fine gradations of tone. They are not merely a pictorial summary of the story, but genuine works of art, and a distinctive feature of the volume."-Scotsman
