Test Prep for Objective Logical Reasoning

Animal Husbandry Objective Answer For 2014

This book has been designed for students who are studying in class 12 and need to boost their preparation for Biology. The book is comprehensive and the design is based on the guidelines laid down by Central Board of Secondary Education. The book has been divided into chapters that cover the important topics of Biology. Students will find separate chapters on human reproduction, reproduction in organisms, inheritance, biotechnology, ecosystem, molecularbasis and variation in this book. In addition to well-designed content, the book has a separate section on questions and answers. In this section, questions from NECERT books have been provided with detailed answers. The book can be used additionally to the books prescribed in a school or college. It can be used by students studying in class twelve and also by others who are in college.

CBSE Biology, for class 12, has been strictly published according to the latest syllabus prescribed by the CBSE, New Delhi. The book has been thoroughly revised and a new feature - for those students who want to attempt some more challenging problems. provides Hints & Solutions for the exercises of each chapter, at the end of the corresponding chapter.

This book demonstrates that good science, animal care, and humane ethics are consonant and complimentary. Many environmental and treatment-related variables that can adversely affect both the animal and the validity of research are detailed. Fox provides a critical review of present standards of laboratory animal husbandry and routine experimental procedures.

Test Prep for Objective Logical Reasoning

Animal Husbandry Objective Answer For 2014

Livestock industry is vital in providing nutritive food rich in animal protein, supplementing family incomes and generating gainful employment for rural India, particularly among the small, marginal farmers, landless laborers and women. With the livestock and its allied sub-sectors assuming an important role in the national economy, there is a requirement to improve the present knowledge and information dissemination to students, teachers, planners and farmers. Prominent features of this book include vast coverage of the events from pre-independence to post -independence period in the areas of policy planning, research and development activities in veterinary, animal husbandry and animal sciences leading to 'white revolution', 'green revolution', 'egg revolution', 'pink revolution' and taking India at number one position in milk production, third in egg production, and fifth in meat production globally, with a mix of public-private partnership, technology adoption, policy support and political will. The book is easily understandable with factual information making it an excellent reference book. Animal Husbandry is directed to veterinary and agricultural students under the same faculties in Forestry and Horticulture. The book is recommended for teachers, research scientists, PG and UG students in disciplines including animal health, reproduction and production, encompassing animal nutrition, livestock products technology, animal genetics and breeding, and veterinary medicine. The faculties in Animal Husbandry and related disciplines must be necessarily updated for transforming the science in rural India. The book will cater to the needs of scholars in the streams of veterinary science, animal sciences, animal husbandry and agriculture undergoing BVSc & AH, BSc & AH, MVSc, MSc and Doctoral (Ph.D.) degrees.
