The only thing the writers in this book have in common is that they've exchanged sex for money. They're PhDs and dropouts, soccer moms and jailbirds, \$2,500-a-night call girls and \$10 crack hos, and everything in between. This anthology lends a voice to an underrepresented population that is simultaneously reviled and worshipped. *Hos, Hookers, Call Girls, and Rent Boys* is a collection of short memoirs, rants, confessions, nightmares, journalism, and poetry covering life, love, work, family, and yes, sex. The editors gather pieces

from the world of industrial sex, including contributions from art-porn priestess Dr. Annie Sprinkle, best-selling memoirist David Henry Sterry (*Chicken: Self-Portrait of a Young Man for Rent*), sex activist and musical diva Candy Kane, women and men right off the streets, girls participating in the first-ever National Summit of Commercially Sexually Exploited Youth, and Ruth Morgan Thomas, one of the organizers of the European Sex Work, Human Rights, and Migration Conference. Sex is a billion-dollar industry. Meet the real people who are its flesh and blood.

examination of the field, unique in its inclusion of both a historical analysis of problems and policy and an exploration of how capitalism and the market economy have contributed to them. The New Edition of this seminal text examines issues of discrimination, health care, housing, income, and child welfare and considers the policies that strive to improve them. With a focus on how domestic social policies can be transformed to promote social justice for all groups, Jimenez et al. consider the impact of globalization in the United States while addressing developing concerns now emerging in the global village.

its crews, who above all respected the powerful armament it carried. The outbreak of war in Korea brought a rush order in December 1950 which led to a complete production run of 300 vehicles. After 1951, the Marine Corps alone retained confidence in the heavy tank program, investing its scarce funds in the improvements necessary to bring about its fielding after a hurried production run in midst of the 'tank crisis' of the year 1950-51. The eventual retirement of the M103 in 1972, over 20 years after manufacture and after 14 years of operational service, demonstrated the soundness of its engineering. It may have been the unwanted 'ugly duckling' of the Army, which refrained from naming the M103 alone of all its postwar tanks. For the Marine Corps, it served the purpose defined for it in
