Funk explores issues of faith and belief as she re-imagines Samson and Delilah as Ricky and Lucy of I Love Lucy fame. Gluttony is last in the seven deadly sins foot race, huffing and puffing, but it's not for lack of trying. Other poems offer a more personal point of view with assured and tender love poems. Funk writes from experience of marriage and domesticity, and of the ways in which a relationship shapes the person one becomes. A series of poems is drawn from family reminiscence. Children play flashlight tag, a father builds his daughter a tree house, a mother makes a blue velvet Christmas dress: this is poetry created from memory's ragbag. This is a new edition for November 2013 If you own a classic car, you face the problem of choosing the appropriate modern lubricants to use in its engine, gearbox, final drive and chassis. The original owner's handbook, if you have one, is probably of limited use as the lubricants it lists are probably no longer available. Even if you have some good information, you still have problems: are modern oils suitable? If yes, which ones? (Even within a single brand there may be five or six different oils sold for apparently the same purpose.) If no, then why not? What characteristics are unsuitable, and where do you turn to obtain an appropriate oil? This book gives all owners the information that will allow them to understand the lubrication needs of their cars, and to relate those needs to modern lubricants. You will be able to make correct and safe choices, or to seek out appropriate specialised lubricants if necessary, using step-by-step instructions. Answers are also given to many of the most commonly asked questions about suitable oils for classic cars.
