From the acclaimed novelist and screenwriter of The Theory of Everything comes a revelatory look at the period immediately following Winston Churchill ' s ascendancy to Prime Minister—soon to be a major motion picture starring Gary Oldman. " He was speaking to the nation, the world, and indeed to history..." May, 1940. Britain is at war. The horrors of blitzkrieg have seen one western European democracy after another fall in rapid succession to Nazi boot and shell. Invasion seems mere hours away. Just days after becoming Prime Minister, Winston Churchill must deal with this horror—as well as a skeptical King, a party plotting against him, and an unprepared public. Pen in hand and typist-secretary at the ready, how could he change the mood and shore up the will of a nervous people? In this gripping day-by-day, often hour-by-hour account of how an often uncertain Churchill turned Britain around, the celebrated Bafta-winning writer Anthony McCarten exposes sides of the great man never seen before. He reveals how he practiced and re-wrote his key speeches, from ' Blood, toil, tears and sweat ' to ' We shall fight on the beaches ' ; his consideration of a peace treaty with Nazi Germany, and his underappreciated role in the Dunkirk evacuation; and, above all, how 25 days helped make one man an icon. Using new archive material, McCarten reveals the crucial behind-the-scenes moments that changed the course of history. It ' s a scarier—and more human—story than has ever been told. " McCarten's pulse-pounding narrative transports the reader to those springtime weeks in 1940 when the fate of the world rested on the shoulders of Winston Churchill. A true story thrillingly told. Thoroughly researched and compulsively readable. " —Michael F. Bishop, Executive Director of the International Churchill Society

This is not a book about Winston Churchill. It is not principally about his politics, nor his rhetorical imagination, nor even about the man himself. Instead, it addresses the varied afterlives of the man and the persistent, deeply located compulsion to bring him back from the dead, capturing and explaining the significance of the various Churchill myths to Britain's history and current politics. The authors look at Churchill's portrayal in social memory. They demonstrate the ways in which politicians have often used the idea of Churchill as a means of self-validation - using him to show themselves as tough and honest players. They show the man dramatized in film and television - an onscreen persona that is often the product of a gratuitous mixing of fact and fantasy, one deliberately shaped to meet the preferences of the presumed audience. They discuss his legacy in light of the Brexit debate - showing how public figures on both sides of the Leave/Remain debate were able to use elements of Churchill's words and character to argue for their own point-of-view.

As a statesman, Ernest Bevin is second only to Churchill in impact and legacy. Born in abject poverty to a single mother, and with virtually no formal education, Bevin went on to become the founder of the largest trade union in British history and then made it to the top of politics and government. As Minister of Labour from 1940 to 1945, he was the nation ' s wartime mobiliser-in-chief. Clement Attlee, Churchill ' s Deputy Prime Minister, kept the wartime coalition in good administrative order, but it was the charismatic Bevin who really drove the domestic war effort. As post-war Foreign Secretary, Bevin was Britain ' s last world power envoy and did much to thwart Stalin ' s Soviet Union and to prevent Europe sinking back into conflict. No one did more to stabilise and democratise Europe and to pave the way for the European Union. In this major, wide-ranging new biography, Andrew Adonis brings to life one of our greatest statesmen – a politician whose light is often unjustly hidden beneath that of his more celebrated contemporaries.
