Udo published his best-seller Fats That Heal Fats That Kill in 1993, which became recognized as the bible on fats. To set new standards for food oils and other health-supporting consumer products, Udo partnered with Flora Manufacturing and Distributing Ltd. in 1994 to create the Udo's Choice® health product line which includes EPA-rich oil blends and other blends of supplements (see udoschoice.com).

Fats That Heal, Fats That Kill: The Complete Guide to Fats ...

Fats that Heal Fats that Kill led to the creation of a new industry — making edible oils 'with health in mind'. In the book, Udo Erasmus exposes the manufacturing processes that turn healing fats into killing fats, explains the effects of these damaged fats on human health, provides the knowledge you need to avoid the damaged ones and to choose health-promoting oils, and explores the therapeutic potential of flax, hemp, olive, fish, evening primrose, and other oils.

Fats That Heal Fats That Kill - Udo's Choice

Udo Erasmus presents research on common and lesser-known oils with therapeutic potential: flax, olive, fish, evening primrose, borage, blackcurrent, and snake oil. He exposes the manufacturing processes that turn these healing fats into killing fats, explaining the effects these damaged fats have on human health.

Fats That Heal, Fats That Kill by Udo Erasmus

Coconut Oil – Don't Believe The Hype. By Udo Erasmus. In Fats that Heal Fats that Kill. 0 comment. For years, the Western world demonized coconut oil for supposedly increasing cholesterol and causing heart attacks, even using full-page newspaper ads to do so.

Fats that Heal Fats that Kill Archives - Udo Erasmus

Fallon recommends healthy doses of grass fed and wild meats, dairy, and butter. Udo favors limiting saturated fats, which he views as a serious health risk, although he states that a moderate amount of animal fats should be fine in a nutritionally rich diet (plenty of vitamins, minerals, and antioxidants).

Fats That Heal, Fats That Kill : The Complete Guide to ...

All fats are made of glycerol plus three fatty acids. The types of fatty acids that are joined to the glycerol backbone make all the difference between fats that heal and fats that kill. Fats = Glycerol backbone + 3 fatty acids. Fatty acids contain carbon, hydrogen and oxygen. Carbon atoms can have single bonds or double bonds between them. As Udo says in the book, it's like two lovers holding either one hand, or two hands.
