This text provides a contemporary introduction to accounting and accounting systems. It covers the essence of both financial and managerial accounting in a non-procedural, non-debit and credit manner. After a brief introduction to financial statement preparation, the remainder of the text focuses on controls and the use of accounting information in decision making.

You'll find the tools you need to help work through end-of-chapter assignments with these working papers. The preformatted files provide a starting point by giving you a basic structure for journal entries and problems.
