Forest Fires An

Wildfire or wildland  
fire, sometimes called  
grassland or forest fire,  
takes place in  
uninhabited or  
uncultivated areas.  
Fighting wildfires  
requires different  
knowledge, training,  
equipment, and policies  
than fighting urban or  
suburban fires, and it is  
largely the province of  
the U.S. Forest Service.
