Vertical air flow adjustment (manually) To adjust vertical air flow direction, adjust any one of the horizontal louvre blades. When adjusting the horizontal louver blades up or down, always keep the top or bottom blades horizontal. This can effectively prevent water droplets condensing on the front panel of the unit.

Window Air Conditioners. Hitachi window air conditioners offer a more practical and economical option than a central air conditioning system. They are of optimum value for those who require single rooms to be cooled or heated instead of a whole house. The window air conditioners are easy to install and are energy efficient. Hitachi air conditioners include small chassis, which can be installed with ease in small, multi storey apartments.
