In July 2019, Apple updated the MacBook Air that was originally redesigned in October 2018. Even though there were no major updates to the MacBook Air, the enhancement led to a new butterfly keyboard which utilizes the same updated materials like the 2019 MacBook Pro, some small SSD changes, an improved display with True Tone, and a lower price tag. The MacBook Air has a T2 chip as well as fingerprint sensor for the Touch ID that can be used instead of entering password. This T2 chip is built for enhanced security on the MacBook Air by ensuring a secure boot process through Secure Enclave, and fast data encryption with an SSD controller. The macOS Catalina which was launched in October 2019, is the latest operating system for the Apple Mac family. The new software brought with it several new exciting features that may seem overwhelming even to existing users. Some of these features include the Screen Time, division of iTunes into 3 separate apps, using the iPad as a second screen, otherwise

show here, Yep, that's right. Apple ditched the disastrous butterfly keyboard for its Magic Keyboard and all I can say is: thank goodness. Even with all these new features, Apple still managed to keep the starting price at a relatively affordable \$999. The MacBook Air (2020) comes with all the right improvements without sacrificing the best features of the previous version. Apple didn't reinvent the MacBook Air on the outside. But the 2020 model does have some exciting improvements under the hood. There's a 10th-generation processor, and double the base storage. There is a lot to love in Apple's latest MacBook Air. This book is written in simple and clear terms, with a step-by-step approach that will help you to master your MacBook Air with 2020 MacOS Catalina 10.15 within the shortest period of time. Apple's new MacBook Air (M1, 2020) is an absolutely fantastic laptop, and thanks to brilliant new additions, in the form of Apple's own M1 chip (which replaces the Intel processors used by the company) and an improved screen. In previous years, the MacBook Air was a reduced version of the MacBook, which was an excellent thin and light laptop for everyday use, but due to its low features did not really fit into intense creative workloads, such as editing, transfer ultra-high definition video or complex 3D animated scenes. However, this latest version has the same M1 chip introduced in the new MacBook Pro 13-inch (M1, 2020), which means that for the first time the MacBook Air can compete with the more expensive laptop. So it really deserves a place around the best laptops in graphic design. It is better, and still the most inexpensive MacBook you can get right now, and it means if you're looking for a slim and lightweight 13-inch laptop for video and photo editing, then the MacBook Air (M1, 2020) is the perfect choice. This guide will teach you how to master your MacBook Air [M1,2020] very fast, this guide is ideal for both Pros and newbies. Here are the contents

Air? Are you looking for a manual that will expose you to all the amazing features of macOS Catalina? Then get your hands on this book and have an amazing time using your device. macOS Catalina, the latest version of the world's most advanced desktop operating system, is now available as a free software update. With macOS Catalina, users are able to enjoy Apple Arcade, a groundbreaking new game subscription service featuring new, exclusive games from some of the world's most creative developers. Adding to great entertainment on the Mac, Catalina also features all-new Mac versions of Apple Music, Apple Podcasts and Apple TV apps. A new feature called Sidecar extends Mac desktops with iPad as a second display, or tablet input device using Apple Pencil with Mac apps. Voice Control, a transformative accessibility feature, allows Mac to be controlled entirely by voice. With Mac Catalyst, a new technology in Catalina that makes it easy for third-party developers to bring iPad apps to Mac, users will begin to see their favorite iPad apps in Mac versions, including Twitter, TripIt, Post-It, GoodNotes and Jira, with more to come. And for the first time, Screen Time comes to Mac, giving users insight into how they spend time in apps and on websites, and the ability to decide how to spend their time. This book is written in simple and clear terms and with a step-by-step approach that will help you to master your MacBook Air with macOS Catalina
