CHAPTER 9 Creating Motion

Macromedia Flash MX 2004 and
Macromedia Flash MX Professional 2004
offer several ways to include animation
and special effects in your document.
Timeline effects, such as blur, expand, and
explode, make it easy to animate an
object: you can simply select the object,
then select an effect and specify
parameters.

Scripts In Macromedia Flash MX 2004
and Macromedia Flash MX Professional
2004, you can write scripts that are
embedded in your FLA file or stored
externally on your computer. (If you are
writing ActionScript 2.0 class files, you
must store each class as an external file
that has the same name as the class.) To
write embedded scripts, use the Actions
panel and ...

The book is for Flash MX 2004 and I have Flash MX 2004 professional. I don't know if that would make a difference. The book is a comprehensive introduction broken into manageable lessons. The kids find the exercises fairly manageable, but the lessons in between the exercises are written at a bit of a high reading level for them.
