Providing coverage of topics such as relevant costs for decision making, capital budgeting decisions, segment reporting and decentralization, this text offers a glimpse into how real companies use managerial accounting concepts in their practical applications. Authors Eric Noreen, Peter Brewer, and Ray Garrison have crafted a streamlined Managerial Accounting book that is perfect for non-accounting majors who intend to move into managerial positions by focusing on the fundamentals to develop the conceptual framework managers need to succeed. This is done by adhering to the three core standards:FOCUSNoreen/Brewer/Garrison pinpoint the key managerial concepts students will need in their future careers. With no journal entries or financial accounting topics to worry about, students can focus on the fundamental principles of managerial accounting. The manager approach in Noreen allows students to develop the conceptual framework needed to succeed, with a focus on decision making and analytical skills.RELEVANCEBuilding student interest with its insightful Business Focus vignettes opening each chapter, current In Business examples throughout the text, and tried-and-true end-of-chapter material, students will always see the real-world applicability of Noreen/Brewer/Garrison.BALANCEThere is more than one type of business, and so Noreen/Brewer/Garrison covers a variety of business models, including nonprofit, retail, service, wholesale, and manufacturing organizations. Service company examples are highlighted with icons in the margins of the text

Wild's Managerial Accounting presents the managerial accounting course content using a corporate approach. In features the same student-friendly writing style and learning tools that have enjoyed consistent success with students and instructors using other texts in the Wild series. Also consistent with this series is Managerial Accounting's focus on the "Three C's": Clear presentation of accounting concepts, Concise coverage to help students focus on important material, Cutting edge technology to engage students and improve their chances for success. The author provides a balance of small and leaf.

Fundamentals of Cost Accounting provides a direct, realistic, and efficient way to learn cost accounting, integrated with new technology learning tools. Fundamentals is short (approximately 700 pages) making it easy to cover in one semester. The authors have kept the text concise by focusing on the key concepts students need to master. The Decision opening vignettes and Business Application boxes show realistic applications of these concepts throughout. All chapters conclude with a Debrief that links the topics in the chapter to the decision problem faced by the manager in the opening vignette. Comprehensive end-of-chapter material provides students with all the practice they need to fully learn each concept. McGraw-Hill Connect Accounting a digital teaching and learning platform forhomework completion and review that helps improve student performance over avariety of critical outcomes while aiding instructor grading and assessmentefficiency. Housed within Connect, SmartBook is an adaptivestudy tool that helps identify specific topics and learning objectivesindividual students need to study. As students read, SmartBook assesscomprehension and dynamically highlights where they need to focus more. Theresult is that students are more engaged with course content, can betterprioritize their time, and come to class ready to participate. End-of-Chapter Material helpsyou apply the concepts in accounting and, in more comprehensive material,analyze the information to form business decisions. Assignable materialincludes exercises, problems and test bank material. Based on yourinstructor settings, you can receive instant feedback on your work either whileworking on an assignment or after the assignment is submitted for a grade.

The authors have kept the text concise by focusing on the key concepts students need to master. Opening vignettes & 'in action' boxes show realistic applications of these concepts throughout. Comprehensive end-of-chapter problems provide students with all the practice they need to fully learn each concept.

Managerial accounting : an overview -- Managerial accounting: beyond the numbers -- Managerial accounting and cost concepts -- Job-order costing -- Activity-based costing -- Process costing -- Cost-volume-profit relationships -- Variable costing and segment reporting : tools for management -- Master budgeting -- Flexible budgets, standard costs, and variance analysis -- Performance measurement in decentralized organizations -- Differential analysis : the key to decision making -- Capital budgeting decisions -- Statement of cash flows -- Financial statement analysis -- Credits -- Index

Introduction to Managerial Accounting, 4/e by Brewer/Garrison/Noreen is based on the market-leading text, Managerial Accounting, by Garrison, Noreen and Brewer. However, this is not simply a briefer book with chapters removed; B/G/N has been rethought and retooled to meet the needs of the market. B/G/N 4/e is a more accessible, yet thoroughly student-friendly text that satisfies the basic needs of the managerial accounting student without unnecessary depth on advanced topics associated with the follow-up course: cost accounting/cost management. Faculty and students alike will find this new edition has retained the hallmark features of the Garrison brand: author-written supplements, excellent readability, terrific examples, and balanced end-of-chapter material.
