A Modern History of Japan: From Tokugawa Times to the Present, Second Edition, paints a richly nuanced and strikingly original portrait of the last two centuries of Japanese history. It takes students from the days of the shogunate--the feudal overlordship of the Tokugawa family--through the modernizing revolution launched by midlevel samurai in the late nineteenth century; the adoption of Western hairstyles, clothing, and military organization; and the nation's first experiments with mass democracy after World War I. Author Andrew Gordon offers the finest synthesis to date of Japan's passage through militarism, World War II, the American occupation, and the subsequent economic rollercoaster. The true ingenuity and value of Gordon's approach lies in his close attention to the non-elite layers of society. Here students will see the influence of outside ideas, products, and culture on home life, labor unions, political parties, gender relations, and popular entertainment. The book examines Japan's struggles to define the meaning of its modernization, from villages and urban

neighborhoods, to factory floors and middle managers' offices, to the imperial court. Most importantly, it illuminates the interconnectedness of Japanese developments with world history, demonstrating how Japan's historical passage represents a variation of a process experienced by many nations and showing how the Japanese narrative forms one part of the interwoven fabric of modern history. This second edition incorporates increased coverage of both Japan's role within East Asia--particularly with China, Korea, and Manchuria--as well as expanded discussions of cultural and intellectual history. With a sustained focus on setting modern Japan in a comparative and global context, *A Modern History of Japan, Second Edition*, is ideal for undergraduate courses in modern Japanese history, Japanese politics, Japanese society, or Japanese culture.

Marketing visionary Martin Lindstrom has been on the front line of the branding for over twenty years. In *Brandwashed*, he turns the spotlight on his own industry, drawing on all he has witnessed behind closed doors, exposing for the first time the full extent of the psychological tricks and traps that companies devise to win our hard-earned money. Lindstrom reveals eye opening details such as how advertisers and marketers target children at an alarmingly young age (starting when they are still in the womb), what heterosexual men really think about when they see sexually provocative advertising, how marketers and retailers stoke the flames of public panic and capitalize on paranoia over diseases, extreme weather events, and food contamination scares. It

also presents the first ever evidence to prove how addicted we are to our smartphones, and how certain companies (like the maker of a very popular lip balm), purposely adjust their formulas in order to make their products chemically addictive, and much, much more. Brandwashed is a shocking insider's look at how today's global giants conspire to obscure the truth and manipulate our minds, all in service of persuading us to buy.

Creating Futures provides the tools managers, planners, and entrepreneurs need to anticipate change; avoid forecasting errors; avoid clichés and conventional thinking; and make sense of the concepts used in foresight, scenario building and strategic planning.

Packing an off-kilter sense of humor and keen scientific minds, authors Margaret Mittelbach and Michael Crewdson take off with renowned artist Alexis Rockman on a postmodern safari. Their mission? Tracking down the elusive Tasmanian tiger. This mysterious, striped predator was once the world's largest carnivorous marsupial. It had a pouch like a kangaroo and a jaw that opened impossibly wide to reveal terrifying choppers. Tragically, this rare and powerful animal was hunted into extinction in the early part of the twentieth century. Or was it? Journeying first to the Australian mainland and then south to the wild island of Tasmania, these young naturalists brave a series of bizarre misadventures and uproarious wildlife encounters in their obsessive search for the long-lost beast. From an ancient cave featuring an aboriginal painting of the tiger to a lab in Sydney where maverick scientists are trying to resurrect the animal through cloning, this intrepid trio comes face-to-face with blood-sucking land leeches and venomous bull ants, a misbehaving wallaby who invades their motel room, and a crew of flesh-eating, bone-crunching Tasmanian devils gorging on roadkill.

They bond with trappers, bushwackers, and wildlife experts who refuse to abandon the tiger hunt, despite the paucity of evidence. Sifting through local myths, bar-room banter, and historical accounts, these environmental detectives sweep readers into a world where platypus' swim, kangaroos roam, and a large predator with a pouch was—or perhaps still is—queen of the jungle. Filled with Alexis Rockman's stunning drawings of flora and fauna—made from soil, wombat scat, and the artist's own blood—Carnivorous Nights is a hip and hilarious account of an unhinged safari, as well as a fascinating portrayal of a wildly unique part of the world.
