The 4 steps of the NY Engineers plumbing engineering service are: Project planning (consultation and quotation) Plumbing engineering (including CAD drafting, CAD conversion, CAD to BIM conversion, and as required) Project reviews (design change management / quality control) Project delivery (multiple formats available)

Plumbing Engineering Design Services | New York Engineers

The Plumbing Engineer is involved with systems that overlap into the mechanical, civil, and chemical engineering disciplines. The Plumbing Engineer is in a key position to influence the water efficiency, sustainable site, energy, fire protection, and pollution systems of a facility. The future of Plumbing Engineering lies in the ability to design systems with the "whole building" in mind using, preserving, and respecting the natural biospheric earth systems of recycling air, waste, and water.
