– When the bike is not in use try to keep it in a dry place out of the elements. – Keep the tyres properly inflated. This will prevent uneven tyre wear. It will also make your life easier as the bike will roll with less resistance. In turn the motor is working less and the range is extended. This can make more of a difference than you may think.

Electric Bike Service & Maintenance Guide - E-bikeshop News

Forks need regular periodic maintenance. We recommend cleaning and lubrication refills (lower leg service) every 25 riding hours, and a full service (strip down, seal replacement and full oil change) every 200 hours. The more frequent lower leg service can be carried out at home, by the experience home mechanic.
