## Architecture **Service Oriented Architecture Concepts Technology**

In *Service-Oriented Architecture: Concepts, Technology, and Design*, Thomas Erl presents the first end-to-end tutorial that provides step-by-step instructions for modeling and designing service-oriented solutions from the ground up.

### **Service-Oriented Architecture (paperback) : Concepts ...**

Service-oriented architecture integrates distributed, separately maintained and deployed software components. It is enabled

# Read Online Service Oriented Architecture Concepts Technology And Design 2nd

by technologies and standards that facilitate components' communication and cooperation over a network, especially over an IP network. SOA is related to the idea of an application programming interface (API), an interface or communication protocol between different parts of a computer program intended to simplify the implementation and maintenance of software.

**What Is Service-Oriented Architecture? | by  
Software ...**

Service Oriented Architecture (SOA) is an architectural approach in which application components makes use of a collection of services available in a network, which communicates with each other. In service oriented architecture, services communicate with each other, either to pass the data or to coordinating an activity.

Erl is known for defining eight principles of service design for service-orientation. These principles were first published in 2005 in his book *Service-Oriented Architecture: Concepts, Technology, and Design* and in the 2005 edition of *SOA World Magazine*, and then became the basis for his book *SOA Principles of Service Design*, published in 2007.

## **Service-Oriented Architecture: Concepts, Technology, and . . .**

Software as a service (SaaS / s æ s /) is a software licensing and delivery model in which software is licensed on a subscription basis and is centrally hosted. It is sometimes referred to as "on-demand software", and was formerly referred to as "software plus services" by Microsoft. SaaS applications are also known as Web-based software, on-demand software and hosted software.
