It's quiltmaking made as simple as paint-by-numbers! With a new method called foundation piecing, you just follow a numerical sequence to stitch fabric onto a foundation. Even the smallest pieces meet precisely, quickly, and accurately. With 365 projects, you could make one every day of the year. They're organized month-by-month, so you could make a patriotic quilt with the July blocks; a Thanksgiving quilt in November; a Christmas quilt with the December blocks; or pretty floral quilts with each month's flowers. (There are also some whimsical designs such as the yellow submarine that marks the day the Beatles came to America.) Photos of quilts made with blocks for each month accompany the complete instructions for the entire foundation piecing process.

Providing insights into new technology trends, business cases and paradigms, this book is about change. In this title, technology and business strategists learn how to make me-centric computing work for them. This new technology is so called because it fits into the individual's life in a natural way, conforming to preferences and requirements, taking orders, and performing a variety of delegated tasks.

Modern living isn't easy. It often seems to require some know-how our parents didn't pass on, or a special tool. Happily, Kaufmann Mercantile has both, and in this comprehensive field guide, they share their expertise on a huge range of topics, from frying an egg, tying a tie, or brewing coffee to things the inner utilitarian in all of us aspires to do, like splitting wood, building a fire, growing our own food, or making our own soap. Fifty how-tos are organized into five sections: Kitchen, Outdoors, Home, Garden, and Grooming. Written in clear detail and extensively illustrated, The Kaufmann Mercantile Guide teaches us what we ought to know how to do, as well as what we'd like to. Supplemental sidebars feature the best tool for the job, whether a dibber for planting, the best rawhideand- ash snowshoes, or flammable smoking bags for making authentic BBQ. This book is a must-have reference tool for living well in the twenty-first century.
