### Multiplying Decimal Numbers in Science

We are hoping to find someone with math/english teaching experience, or who is currently in school to be a teacher. It would after school on ... I am looking for refresher in basic math fractions and ...

Step right up! Come take part in the county fair, where you'll see fractions, decimals, and percents everywhere. Gobble up a fraction of pie, boost your batting average in the arcade, and take a percent off the price of a toy. Learning about equivalent parts equals a whole lot of fun in this straightforward introduction to a challenging concept.

Teaching tips for solving math problems through studying three different types of activities: designs to color, designs to create, designs to construct.

The world lies devastated after the massive oil crisis that was described in LAST LIGHT. Human society has more or less entirely broken down and millions lie dead of starvation and disease. There are only one or two beacon communities that have managed to fashion a new way of living. Jenny Sutherland runs one of these groups. Based on a series of decaying offshore oil-rigs - for safety - a few hundred people have rebuilt a semblance of normality in this otherwise dead world. But as her and her people start to explore their surroundings once again, they start to realise not every survivor has the same vision of a better future than their catastrophic past. There are people out there who would take everything they have. War is coming, and the stakes are truly massive...

Kids will love creating their own graph art designs while practicing decimals and fractions! First they solve a series of math problems and plot the answers on a graph. When they connect the points, a mystery emerges!

Scientifically proven: Daily Word Problems frequent, focused practice leads to mastery and retention of the math skills practiced.

Kids will get a kick out of solving math problems to create these colorful and amazing kaleidoscope designs. Each activity in this motivating collection starts with a math worksheet that lets kids practice skills in multiplication, division, fractions, or decimals. Then, on an accompanying page, kids use their answers to "color by numbers," creating intricate and dazzling works of art! For use with Grades 4-6.
