THE thing that I know least about is my beginning. For it is possible to introduce Ethel Rawdon in so many picturesque ways that the choice is embarrassing, and forces me to the conclusion that the actual circumstances, though commonplace, may be the most suitable. Certainly the events that shape our lives are seldom ushered in with pomp or ceremony; they steal upon us unannounced, and begin their work without giving any premonition of their importance. Consequently Ethel had no idea when she returned home one night from a rather stupid entertainment that she was about to open a new and important

chapter of her life. Hitherto that life had been one of the sweetest and simplest character—the lessons and sports of childhood and girlhood had claimed her nineteen years; and Ethel was just at that wonderful age when, the brook and the river having met, she was feeling the first swell of those irresistible tides which would carry her day by day to the haven of all days. It was Saturday night in the January of 1900, verging toward twelve o'clock. When she entered her room, she saw that one of the windows was open, and she stood a moment or two at it, looking across the straight miles of white lights, in whose illumined shadows thousands of sleepers were holding their lives in pause.

"It is not New York at all," she whispered, "it is some magical city that I have seen, but have never trod. It will vanish about six o'clock in the morning, and there will be only common streets, full of common people. Of course," and here she closed the window and leisurely removed her opera cloak, "of course, this is only dreaming, but to dream waking, or to dream sleeping, is very pleasant. In dreams we can have men as we like them, and women as we want them, and make all the world happy and beautiful." She was in no hurry of feeling or movement. She had been in a crowd for some hours, and was glad to be quite alone and talk to herself a little. It was also so restful to gradually relinquish all

the restraining gauds of fashionable attire, and as she leisurely performed these duties, she entered into conversation with her own heart—talked over with it the events of the past week, and decided that its fretless days, full of good things, had been, from the beginning to the end, sweet as a cup of new milk. For a woman's heart is very talkative, and requires little to make it eloquent in its own way.

Through a probing investigation of conservative Christianity and its response to an issue that, according to the statistics of

conservative Christian groups, affects only a small number of Americans, Ludger Viefhues-Bailey alights on a profound theological conundrum: in today's conservative Christian movement, both sexes are called upon to be at once assertive and submissive, masculine and feminine, not only within the home but also within the church, society, and the state. Therefore the arguments of conservative Christians against same-sex marriage involve more than literal readings of the Bible or nostalgia for simple gender roles. Focusing primarily on texts produced by Focus on the Family, a leading media and ministry organization informing conservative Christian culture, Viefhues-Bailey identifies

two distinct ideas of male homosexuality: gender-disturbed and passive; and oversexed, strongly masculine, and aggressive. These homosexualities enable a complex ideal of Christian masculinity in which men are encouraged to be assertive toward the world while also being submissive toward God and family. This web of sexual contradiction influences the flow of power between the sexes and within the state. It joins notions of sexual equality to claims of "natural" difference, establishing a fraught basis for respectable romantic marriage. Heterosexual union is then treated as emblematic of, if not essential to, the success of American political

life yet far from creating gender stability, these tensions produce an endless striving for balance. Viefhues-Bailey's final, brilliant move is to connect the desire for stability to the conservative Christian movement's strategies of political power.
