modern physics, the

Both received liberal
educations that
emphasized moral as
well as intellectual
growth. Both were

outstanding
theoreticians who
worked on the atom
bomb at Los Alamos.

Both advised the

were, in their youth,
sympathetic to liberal
causes, and both were
later called to defend the
United States against

colleagues against anti-

Finally, both prized
scientific community as
a salve to the apparent

values. Yet, their
responses to the use of

testing of the hydrogen
bomb, and the treachery
of domestic politics
differed markedly.

confidence from
scientific achievement

preserved a deep
