“Transformation of the God-Image” by

Edward Edinger is a review of C. G.

Jung’s “Answer to Job”. Perhaps most

valuable in Edinger’s review are; (a) his

numerous emphases of the parallels Jung

illustrates between Christianity and the

psychic Individuation process, and (b) his

elaborations on Jung’s explanations of the

dualities in Christianity.

2) The God-image as pictured in Christian theology. In Christian theology the God-image of Yahweh has undergone a transformation by the Incarnation. It's never said so outright, it would be kind of scandalous to say it outright. But in the legendary and marginal material it's stated quite explicitly that Yahweh was tamed in the lap of the Virgin.

Image Elucidation Through Jung's transformation of God through human consciousness, contains the essence of the Jungian myth. This down-to-earth study evokes that essence with unequalled clarity. Originally seminars given at the Jung Institute of Los Angeles.

C. G. Jung saw in the cultural history of Western man a progressive evolution of its God-image. During the last ten years of his life, he wrote a series of remarkable letters about the new God-image which is now emerging through the discoveries of depth psychology. Dr. Edward Edinger has selected fourteen of these letters to discuss and has segmented the book into the following three parts: Epistemological Premises - Modern man's new awareness of subjectivity; The Paradoxical God - The nature of the new God-image as a union of opposites; and Continuing Incarnation - How the new God-image is born in

Revision of the author's thesis (Th.D.)--Harvard University, 2008.

Restoring God's Image presents God's plan for healing and restoration—a set of simple, clear, concise instructions based on scripture. It represents thousands of hours of therapy, research, and personal experience. Applying these truths, John DelGrosso has experienced great success in helping Christians find release from emotional pain and sinful behaviors. Now he seeks to share these invaluable teachings with the larger Christian world.

Today people are dealing with an identity crisis. They do not know who they are in Christ. They have very little knowledge to

Transformation is a word used often in discussions of psychological and spiritual development. The works in this collection are directed at an assessment of this developmental process on a personal, individual level as well as on a cultural level. These works extend from consideration of transformation in the lives of great figures like Rilke, Rembrandt, Picasso, Jung, and Dante to cultural topics like the changing God image in modern times. With the world in flux, transformation is a topic of relevance on many levels of human existence. T A B L E O F C O N T E N T S Transformation:

We all have the capacity to attain better realities. It is our right, and it is part of our infinite choices. Self-transformation is a normal process in our life and in our nature. We are different from any one of the natural kingdoms in the sense that we have conscious awareness. If we take advantage of our uniqueness and our ability to consciously transform ourselves, we will be able to accelerate the journey to higher states of well-being in our self-transformation. Through amplifications and deeper understanding of ourselves, we will be able to recognize who we are and how we can self-transform. In this book,
